Any recipient of this TMD should carefully read and consider the Prospectus in full and consult their professional adviser if they have any questions regarding the contents of the Prospectus. Any recipient of this TMD who wants to acquire Quoted Options under the Offers will need to complete the applicable Application Form. There is no cooling off period in respect of the issue of the Quoted Options. This TMD is not a disclosure document for the purposes of the *Corporations Act 2001* (Cth) (**Corporations Act**), and therefore has not been lodged, and does not require lodgement, with the Australian Securities and Investments Commission (**ASIC**).

This TMD does not take into account what you currently have, or what you want and need, for your financial future. It is important for you to consider these matters and read the Prospectus before you make an investment decision. Capitalised terms used, but not defined, in this TMD have the meaning ascribed to them in the Prospectus.

Details

TMD requirement	Determination
Investment Objective	<p>The Company expects that an investment in Quoted Options will be suitable to investors who wish to gain exposure to equities in a small/mid-cap mining company listed on the ASX.</p>
Investment Timeframe	<p>The target market of investors will take a short to medium term outlook on their investment. The Company will apply for quotation of the Quoted Options subject to compliance with the requirements of ASX and the ASX Listing Rules.</p> <p>To the extent the Quoted Options are quoted on ASX's official list, subject to any restriction or escrow arrangements imposed by ASX or under Australian securities laws, the Quoted Options will be freely transferable from the date of issue, subject to any restriction or escrow arrangements imposed by ASX or under Australian securities laws.</p> <p>However, investors (particularly those with a short-term outlook for their investment) should be aware that, to the extent the ASX conditions to quotation are not satisfied, the Quoted Options will be unquoted Options. Should that occur, the Quoted Options will not be transferable without the prior written approval of the Company.</p> <p>Option holders will also have an ability to exercise Quoted Options and trade the underlying Shares issued on exercise (irrespective of whether or not the options are quoted), however, investors should be aware that such a dealing is only likely to be commercially viable in the event the trading price of the Shares exceeds the exercise price of the Quoted Options both at the date of exercise and sale.</p> <p>Investors with a medium-term outlook will benefit from an ability to exercise Quoted Options within the 2 year term of the Quoted Options and increase their shareholding and exposure to the potential upside in the Company's Shares into the future.</p> <p>Given the need to pay the exercise price in order to acquire the underlying Shares, investors in the target market are those who are in a financial position that is sufficient for them to invest their funds over a 2 year time horizon, during which time their ability to liquidate their Quoted Options may be limited on exercise of the Quoted Options by the trading price of the underlying Shares.</p>
Investment Metrics	<p>While the Company does not have an established eligibility framework for investors based on metrics such as age, expected return or volatility, it is expected that the target market of investors will be able to withstand potential fluctuations in the value of their investment. The Quoted Options offer no guaranteed income or capital protection.</p>

TMD requirement	Determination
Risk	<p>The Company considers that, while the issue price of the Quoted Options is free, an investment in the Company offered in connection with the Prospectus (for example, through the exercise of the Quoted Options) should be considered highly speculative, such that an investment in the Company is not appropriate for an investor who would not be able to bear a loss of some or all of the investment. Investors should also have a sufficient level of financial literacy and resources (either alone or in conjunction with an appropriate adviser) to understand and appreciate the risks of investing in Quoted Options as an asset class generally and the more specific risks of investing in an Australian listed mining company.</p>
Distribution Conditions	<p>The Quoted Options are being offered to Eligible Shareholders who apply for Shares under the Entitlement Offer, to CPS Capital Group Pty Ltd under the Lead Manager Offer, existing and sophisticated investors who participated in the Placement, and to parties identified by the Company, in conjunction with the Lead Manager pursuant to the Shortfall Offer.</p> <p>The Prospectus includes jurisdictional conditions on eligibility. The Company will also include on its web landing page for the Offers a copy of this TMD and require that persons accessing the page confirm that they meet the eligibility criteria of the expected target market outlined in this TMD.</p> <p>The Company considers that these distribution conditions will ensure that persons who invest in Quoted Options fall within the target market in circumstances where personal advice is not being provided to those persons by the Company.</p> <p>The Entitlement Offer and Shortfall Offer are not underwritten.</p>
Review Triggers	<p>The Quoted Options are being offered for a limited offer period set out in the Prospectus, after the conclusion of which the Quoted Options will no longer be available for investment by way of issue. It follows that the TMD will only apply in the period up to the issue of the Quoted Options (Offer Period).</p> <p>To allow the Company to determine whether circumstances exist that indicate this TMD is no longer appropriate to the Quoted Options and should be reviewed, the following review triggers apply for the Offer Period:</p> <ul style="list-style-type: none"> a) a new offer of Quoted Options that requires preparation of a disclosure document is made after completion of the Offer Period; b) any event or circumstance that would materially change a factor taken into account in making this TMD;

TMD requirement	Determination									
	<p>c) the existence of a significant dealing of the Quoted Options that is not consistent with this TMD. The Company does not consider that an on-sale of the Quoted Options on market is a significant dealing;</p> <p>d) ASIC raises concerns with the Company regarding the adequacy of the design or distribution of the Quoted Options or this TMD; and</p> <p>e) material changes to the regulatory environment that applies to an investment in the Quoted Options.</p>									
Review Period	<p>If a review trigger occurs during the Offer Period, the Company will undertake a review of the TMD in light of the review trigger.</p> <p>The Company will otherwise complete a review of the TMD immediately prior to the issue of Quoted Options under the Offers.</p>
